

Grow your business with Seed Seeddigitalmenu.com

Grow your business...One touch at a time

Seed Digital Menu gives you the power to support a full service restaurant, but the simplicity a small business needs. Seed is designed to operate off of four main roles; a Server, a Host, a Manager, and a Guest. Seed allows you to handle your day to day operations all in one app while providing you the essentials:

"Not only does Seed have the table map my restaurants have been asking for, it gives them the power and functionality a full service restaurant needs. When you add it with Clover mobile, it's a no brainer."
